Thorax support

Your thoracic spine consists of 12 vertebrae, T1 to T12

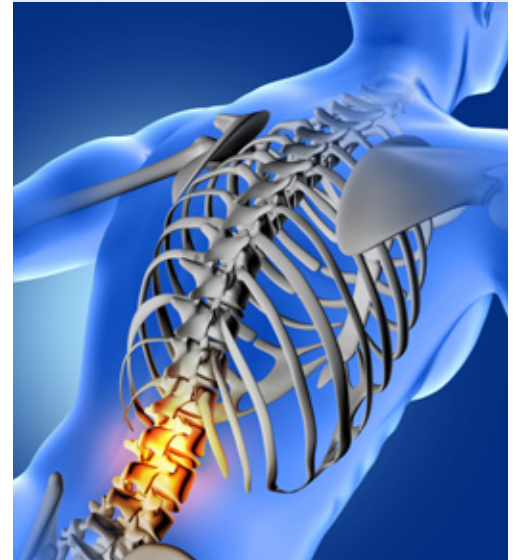

Lumbar support

Lower back region of your spinal column or backbone, L1 to L5

Coccyx area

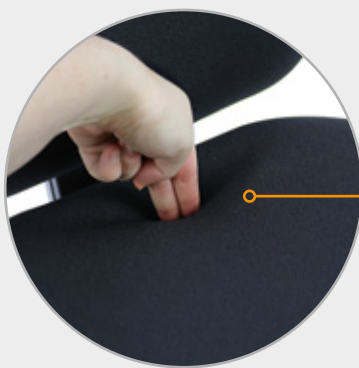

Coccyx option reduces pressure on your coccyx

Ergonomic design to improve posture to ensure perfect alignment of the spine, hips and shoulders, reducing the pressure on the lumbar and coccyx areas

Avoid unnecessary pressure on the spine

Optional extras

Coccyx cut out £65

Coccyx cut out reduces the pressure applied to the coccyx at the base of the spine while seated. The foam in the area has been replaced with a lower density to relieve pain.

Air release seat £100

For a softer seat release the self inflating air from the seat pad

Inflatable thorax £35

Inflatable thorax supports the spine in the upper back region through ensuring the gap between the thoracic part of the spine and the back is filled.

Inflatable lumbar £35

Inflatable lumbar provides support to the lower back and promotes good ergonomic posture. Inflating the internal lumbar reduces strain on the spine.

Base £45

Polished 5 star base
