Your workspace your way

Whether you need a sleek standalone table or a sophisticated multi-desk configuration, Adapt gives you the freedom to design your workspace your way. Expand with returns to create additional workstations or collaborative meeting areas. Smartly engineered, returns are mounted directly onto the desk's support beam providing maximum stability and generous legroom for ultimate comfort and efficiency.

More room to communicate.

Adapt's combination of, support beams, and connectors make it easy to build comfortable team workspaces. A huge range of sizes and flexible configurations means it adapts to whatever you need. With minimal effort, individual desks transform into a seamless bench, creating a spacious, collaborative work surface with plenty of room to move. Need focus or organise, privacy screens can easily be attached anytime, intuitive, refined, and functional.
Single Desks 600mm

Start simple then Adapt easily!

Offering choice is essential when creating a space for an agile workforce, and Adapt's thoughtful design and versatile components help you to do more with less.

The flexibility of bench desking allows for easy reconfiguration and expansion of the work area as one project is completed and a new team moves into the space.

Step 1

Select a starter unit which can be single desk or back-to-back desks. Choose your add-on unit in the same width, depth and finish as the starter unit

Please note:
Don't mix 600mm deep desks with 800mm deep desks, and don't mix 1200mm deep with 1600mm deep back-to-back desk clusters. You can't mix fixed tops and sliding top desks
Step 2

Remove one set of legs from the starter unit and add to the end of the add-on unit

Step 3

Connect the add-on unit to the starter unit. Simply repeat the process and connect more add-on units to create runs of desks

Inset legs

Provides improved leg room as the recessed leg is positioned in the centre of the desks

Cable Trays

Central drop down cable trays where cables can run between two trays for effective cable management

Mass cable riser

Manages all the cables from the desk to the floor, with a front panel that can be removed quickly and easily to gain access to wires

Beam

Steel legs and framework for enhanced strength and stability

Engineered for Easy Access with Sliding Top

Every detail of Adapt is designed for clarity and elegance. Its refined sliding top concept offers smooth, instant access to power and data, keeping the surface pristine and organised. A discreet fold-down cable tray manages larger connections, while integrated vertical and horizontal channels guide cables out of sight with effortless precision. Scallop cutouts in the worksurface provide the perfect finishing touch, allowing clean, direct access through the desktop itself.
Back-to-Back Desks - Sliding Tops

| CODE	W	D	H	RRP
STE1212	1200	1200	725	£1074
