

Lacey:

An innovative concept, designed for a dynamic workspace, Lacey transforms from meeting chair to agile chair with ease.

Lacey

Sleek and distinctive

Designed for the evolving needs of the modern workplace, Lacey provides a sleek, versatile solution for meeting rooms, collaborative areas, and focused working spaces.

The frame, with its elegant flowing lines, provides comfort and durability, perfect for use over long periods of focus.

Lacey

A simple twist

Lacey's minimalist design lends itself to its high versatility; the simple, constant shape compliments an extensive range of customisation options.

Throughout the range, Lacey's strong visual identity remains consistent, yet with a simple colour swap or change of base, the chair transforms - integrating seamlessly into its environment.

Lacey

Both Style & substance

The integral arms, upholstered waterfall-fronted seat pad, and light external shell with supportive mesh back, all combine to ensure Lacey delivers on both style and substance.

Whether an office space or a conference, Lacey is built to deliver a comfortable experience with a look that elevates the room.

Lacey

The Power of Three

Functionality, ergonomics and comfort are the chair's key benefits, ensuring that the user is able to work to the best of their ability in any working environment.

By utilising one of the three available base options, Lacey can be transformed from traditional meeting chair to 'agile' task chair with ease.

Lacey

Health-focused design

The wellbeing of the individual, both physically and mentally, is fundamental in any modern office design, now more so than ever.

Lacey fully embraces this philosophy, providing an innovative, health-focused solution for any commercial interior.

Lacey

Overview

Lacey can be specified with 3 base options: a stacking cantilever frame, a pyramid base with castors, or a 5-star work chair with an integrated tilt mechanism to boost comfort.

With fixed integral arms, black or white frame and a black breathable mesh back, Lacey is sleek, contemporary, and stylish.
